

Location and surrounding area

There are plenty of things to keep you and your delegates entertained during your visit, both on and off campus.

Why not visit the Barber Institute of Fine Arts with its paintings by Monet, Rubens and Van Gogh; its stunning coin gallery; and its exciting programme of exhibitions, lectures and workshops.

Or you may prefer to while away the spare hours at Winterbourne House and Garden – an Edwardian Arts and Crafts family home, restored to its former glory, nestled within 7 acres of beautiful botanical gardens.

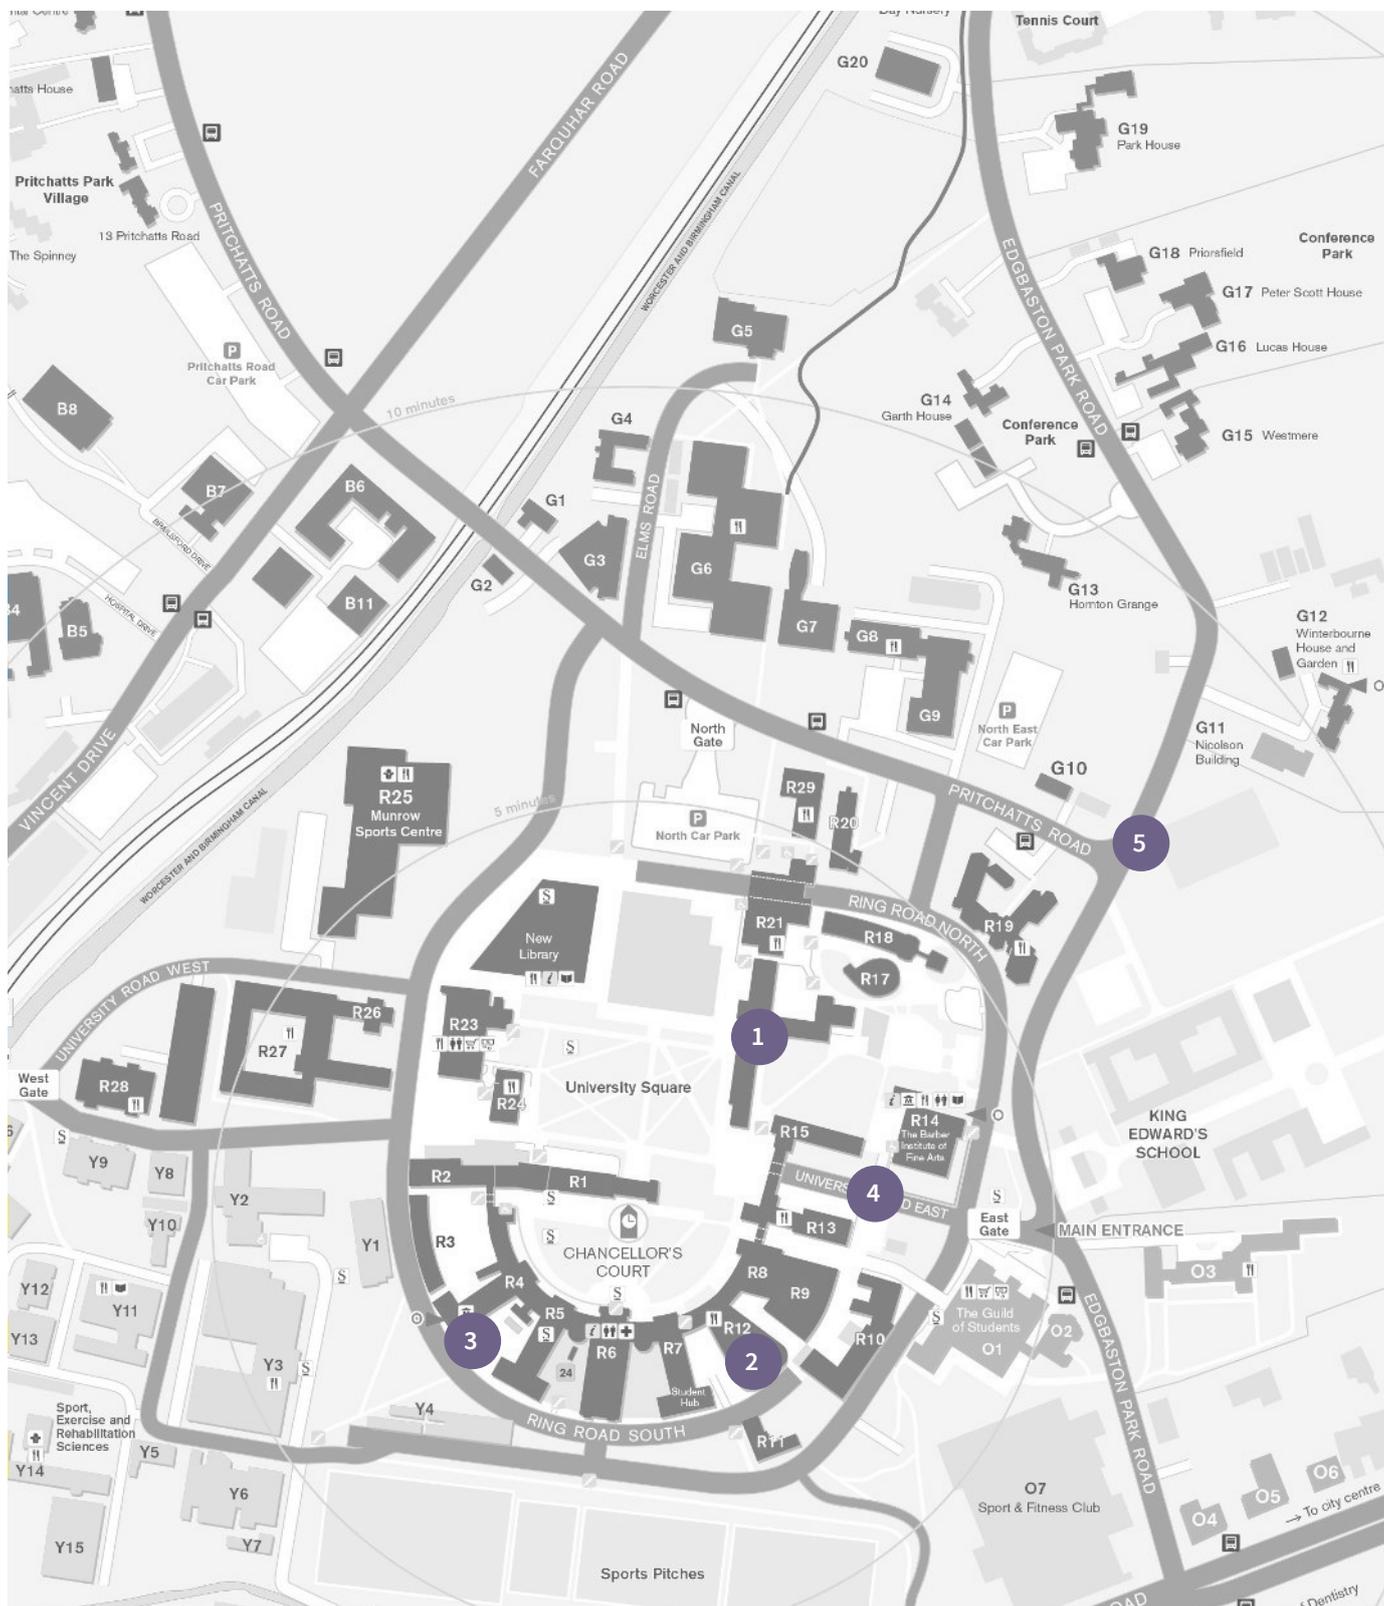

You could even take in a show – The Bramall is the ideal spot to enjoy an evening of comedy, music or dance.

The Cadbury Research Library, at the heart of the Edgbaston campus in the Muirhead Tower, is the home of the University's Special Collections. Come and consult the extensive archives, manuscripts and rare book collections (prior appointment necessary) in our invigilated reading room, or contact us about group teaching using original material.

The final place on our campus, but certainly not the least, is the Lapworth Museum of Geology where you can explore everything from dinosaurs to volcanoes and rocks to fossils.
